Bilal Mrad

IT & Software Development Manager | IT Operations | Technical Project Lead

Riyadh, Saudi Arabia | +966 50 929 6490 | bilalmrad961@gmail.com | bilalmrad.com | linkedin.com/in/bilal-mrad-406b1363

PROFESSIONAL SUMMARY

IT and Software Development Manager with 18 years of experience building business-critical web, mobile and enterprise systems while running day-to-day IT operations. Currently leads software development and IT for STED Saudi in Riyadh, supporting 150+ engineers across 25+ project sites. Combines hands-on full-stack development (PHP, C#/.NET, TypeScript, React Native) with requirements analysis, technical project management, Microsoft 365 administration, vendor coordination and user training. Track record of turning engineering and business workflows into platforms teams use every day, in engineering, education, parking, logistics, elections and security.

KEY ACHIEVEMENTS

- Designed and built STED's in-house MEP commissioning and engineering management platform, giving managers live dashboards of inspections, TIR/SOR logs, completion and weightage.
- Delivered and administer the STED Training Center LMS (stedtrainingcenter.com), covering registration, video courses, exams, certificates and reporting.
- Keep IT running for 150+ engineers across 25+ project sites: Microsoft 365 and Exchange Online, onboarding and offboarding, devices, connectivity, hosting and backups.
- Built ParkMeter, a cross-platform parking product with offline mode, secure QR tickets, wallet and payments; shipped a staging API, admin dashboard and Android preview builds.
- Delivered AI recognition systems (face, licence-plate and vehicle make/model) and election operations software in Lebanon; trained in ANPR/MMR in Wrocław, Poland.

CORE SKILLS

Leadership & delivery: IT Strategy & Operations, Software Development Leadership, Technical Project Management, Requirements Analysis, Solution Architecture, SDLC, Agile, Stakeholder & Vendor Management, Team Mentoring, Documentation & User Training, Digital Transformation

Languages & frameworks: PHP, CodeIgniter (MVC), C#, ASP.NET, VB.NET, JavaScript, TypeScript, React Native, Expo, Next.js, Express.js, REST APIs, HTML5, CSS3, Bootstrap, jQuery

Databases: MySQL, PostgreSQL, Supabase, Microsoft SQL Server, database design, reporting & analytics

IT & cloud: Microsoft 365, Exchange Online, user & licence administration, Aconex, NetXMS, Git & GitHub, GitHub Pages, Hostinger, cPanel, DNS, SSL, backups, hardware/software asset lifecycle, remote & on-site support

Specialised: ANPR/MMR, face recognition, AI vehicle detection, document signing, visitor management, time attendance, ATM surveillance

PROFESSIONAL EXPERIENCE

IT & Software Development Manager — **Jun 2022 – Present**

STED Saudi Co. Ltd. – Riyadh, Saudi Arabia

- Lead software development and IT operations, translating engineering and business needs into maintainable platforms and practical workflows.
- Designed and developed the MEP commissioning and engineering management platform covering projects, buildings, rooms, trades, systems, equipment, inspections, TIR/SOR logs, activity status, weightage and progress reporting.
- Developed and administer the STED Training Center LMS (CodeIgniter, MySQL): registration, course delivery, quizzes, exams, certificates, instructor tools and reporting.
- Provide remote and on-site IT support for 150+ engineers across 25+ project sites: user setup, troubleshooting, procurement, asset lifecycle, connectivity and business applications.
- Administer Microsoft 365 and Exchange Online: accounts, licences, security settings, onboarding/offboarding, email troubleshooting, domains, hosting and backups.
- Coordinate management, engineers, vendors and end users; document requirements, prioritise enhancements and train users.

Senior Full-Stack Web Developer **Jan 2019 – Jun 2022**
Creative Lebanon – Beirut, Lebanon

- Delivered responsive front-end and back-end web solutions from requirements through development, testing, deployment and support.
- Managed client hosting, domains, DNS, SSL, backups and renewals across Bluehost, GoDaddy, HostGator and Namecheap.
- Resolved production issues, implemented enhancements and maintained databases and code for long-term reliability.

Senior Software Developer **Mar 2012 – Nov 2021**
Site Technology SAL – Beirut, Lebanon

- Engineered election operations software and AI solutions for face recognition, licence-plate recognition and vehicle make/model recognition.
- Built document-signing, visitor-management and time-attendance integrations for security and operational environments.
- Configured and supported ATM surveillance and network monitoring with NetXMS.
- Led developer onboarding, code documentation, knowledge transfer and user training.

Software Developer **Aug 2009 – Feb 2012**
Esiters – Dawra, Lebanon

- Developed Port of Beirut modules and interfaces for container and vessel tracking.
- Created operational reports and messaging integrations between the Port of Beirut and Beirut Container Terminal Consortium.

Web Developer **Jun 2007 – Jul 2009**
Early Host International – Beirut, Lebanon

- Built database-driven platforms for municipalities, schools and event management, from requirements through delivery.

SELECTED PROJECTS

MEP Commissioning Management Platform | CodeIgniter, PHP, MySQL, JavaScript
Engineering operations platform for projects, systems, equipment, inspections, TIR/SOR workflows, completion status, weightage and dashboards. In daily use at STED Saudi.

STED Training Center LMS | CodeIgniter, PHP, MySQL | stedtrainingcenter.com
End-to-end learning platform for professional engineering education: roles, courses, videos, exams, certificates, instructor tools and reporting.

ParkMeter Mobile Parking Platform | Expo React Native, TypeScript, Express.js, Next.js, PostgreSQL/Supabase
Driver and inspector apps with online/offline workflows, secure QR tickets, wallet and vouchers, plate validation, payments, revenue reporting, audit logs and admin dashboard.

Nexa Relay Real-Time Chat | Expo React Native, TypeScript, Supabase
Multilingual web, PWA and mobile chat with public rooms, private messaging, presence, moderation, notifications and role controls.

Client Websites | sevenskytech.com, sindibadexpress.com, chehim.com, kingofgymlb.com, sanfoura.com, stedltd.com
Designed, built and hosted company and e-commerce websites, including domains, DNS and SSL.

EDUCATION

MSc, Mathematics and Computer Science | Lebanese University, Lebanon | 2008. Thesis project: university exam result-processing software.

LANGUAGES

Arabic: Native | English: Professional working proficiency | French: Intermediate

CERTIFICATIONS & TRAINING

HP Data Science & Analytics | Google Analytics Certification | IBMI: Leadership & Team Development, Change Management, Basics of Project Management | Aconex System (Udemy) | Neurocar/Neurosoft, Wrocław, Poland: AI vehicle detection and ANPR/MMR systems
